The Logo

The word “comedy” in Gilroy font, paired with “tv” inside a vintage TV icon for a cartoonish feel.

Logo Variations

These logo variations are designed for use across different background types and must be consistently applied to maintain a cohesive brand identity for ComedyTV.

The primary logo versions are black, white and orange, but the logo may also be applied in any of the approved brand colors when appropriate.

Safezone

For optimal visibility and impact, the logo must always be surrounded by a clear space, free from any other elements, text, or graphics. This safezone ensures the logo remains legible and maintains its integrity in all applications.

Logo Mark / Favicon

The “tv” inside a vintage TV icon, can be used as a standalone mark in situations where the full logo would be too small or unnecessary. This ensures the brand remains recognizable even in compact applications.

The mark can appear in black, white, or any approved brand color.
